Professional Summary

Full-stack MERN developer passionate about building web applications that are fast, responsive, and user-friendly. Skilled in creating real-time features and seamless experiences that solve real problems and support business goals. Driven to craft innovative solutions that simplify workflows, enhance engagement, and leave a meaningful impact in the digital space.

Skills

- **Programming Languages:** C, C++, JavaScript
- **Frontend:** HTML5, CSS3, Bootstrap 5.3, React.js, Redux
- **Backend:** Node.js, Express.js, REST APIs, MVC, JWT
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, Thunder Client

Projects

1. E-commerce Website (MERN Stack)

- **Situation:** Small businesses needed an efficient online platform for selling products.
- **Task:** Build a scalable, secure, and interactive e-commerce platform.
- **Action:**
 - Created dynamic frontend using React with responsive UI.
 - Developed backend APIs with Node.js and Express.js for authentication, product, and order management.
 - Integrated MongoDB for database management and Stripe API for secure payments.
 - Implemented Redux for state management and real-time updates.
- **Result:** Delivered a fully functional, responsive platform with secure payments, improving user experience and streamlining online shopping.

2. TODO List Application (MERN Stack)

- Developed a full-stack TODO application using **MongoDB, Express.js, React, and Node.js**, enabling users to manage tasks efficiently.
- Implemented **CRUD operations** for tasks with real-time updates and a responsive user interface.
- Integrated **user authentication and authorization** to ensure secure task management per user.
- Utilized **React Hooks** and **Redux** for state management and seamless front-end performance.
- Designed a **RESTful API** with Express.js to handle backend logic and MongoDB for data storage.

Education

Madurai kamaraj university, Bachelor of Computer Applications

2021 - 2024

- GPA: 4.0/5.0
- **Coursework:** Programming, Web Development, Database Management Systems
